

Quick Start: A Guide for Canvas and F.I.D

- Have students go to www.conneautsd.org .
- Click on Parents and students drop down on right side of page.
- Click on “Canvas\Student Textbooks” This will take you to our School District Canvas log in page.
- Have them log in with their Username and Password. This is the same Username and password your student uses to log in to any school district computer.
- Once logged in to Canvas have students Click on the 3 vertical dots to the right of the Eagle Emblem and the word Dashboard. This is in the upper right corner of the page.
- Once students have clicked on the 3 vertical dots have your student click on “Card View”. This will set everyone’s Dashboard to the same view.
- Have the students go to the left menu and click on “Courses”. When that window opens have them scroll down and click on “All Courses”.
- Then have students “STAR” the courses they are currently taking. When they star the courses it will place a course card on their dashboard for easy access. When completed have students click on the Eagle or Dashboard (which is on the left hand menu. Both will take you back to the dashboard. The Dashboard will have the course cards that

are colored rectangles. Click on each card/course daily to see assignments that have been posted by your teacher.

- Now have students click on their first period Course (Card). Their first period course will have a quiz available to mark attendance. Have students open the quiz and answer the question. Now have them click submit.
- FOR CASH STUDENTS ONLY: Students that are not at CASH first period have been placed in a course called “Flexible Instruction Day Attendance”. If they have not done so already have them accept the course invitation. This will make the course visible on their Dashboard. Now have students open the course and attendance quiz. When they have completed the quiz have them submit.
- Have students click on each card (course) and click on an assignment.
- Teachers should have assignments available for your student to complete for each course. Have students look through Objective, Procedure, and Homework(assignment) to be completed. Have your student complete assignments by the due date given by the teacher.
- Remind student to go to each course card and complete the assignment for that course. The number of assignments depends on the number of courses you would have during that F.I.D.
